

Gas Spring Monitor Arm

DLB511G

Features

Sleeve-Type Quick-Mount System

Quick installation/removal. Compared to bulky one-piece installations of legacy mounts, our modular sleeve design saves effort and simplifies setup.

Quick-release Panel

The upper part of the bracket can be replaced along with the screen.

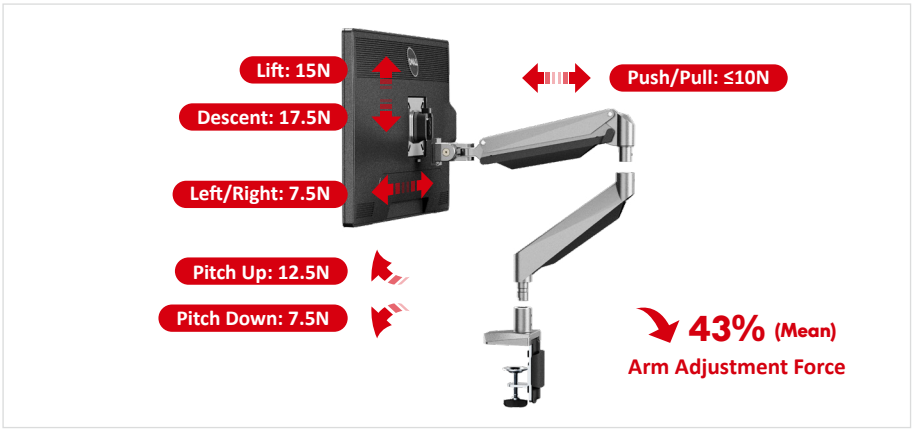

33mm Diameter Sleeve

Ensures both stability and smooth screen adjustment.

25.57% ↗ **Product Packaging Space Utilization Rate**

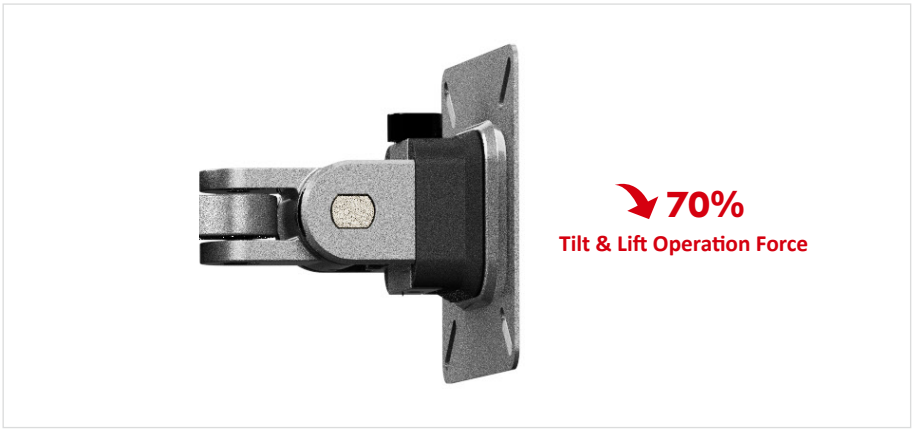

30% ↗ **Product Assembly/ Disassembly Efficiency**

Features

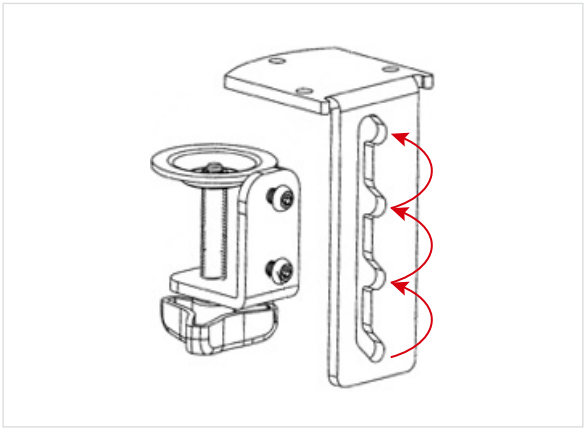

One-Finger Adjustment

Precision-tuned joints require less force than cracking an egg.

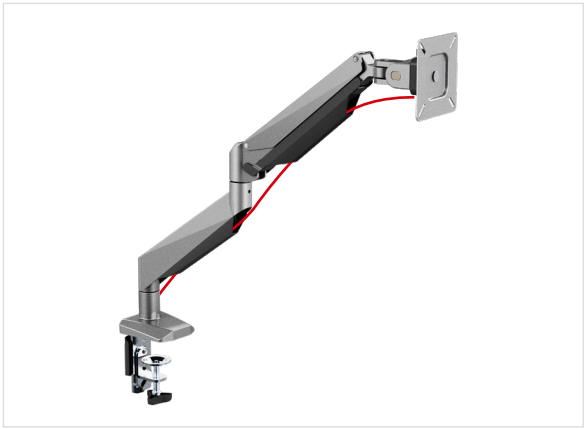

Spring-Assisted VESA Tilt

Enables smooth, precise screen tilting.

Patented Quick-Adjust Base

Patent No. ZL2016106644783
Rapid installation with patent-protected design.

Multi-Plane Cable Management

3 routing joints conceal cables,
organize ≤8mm wires, reduce clutter.

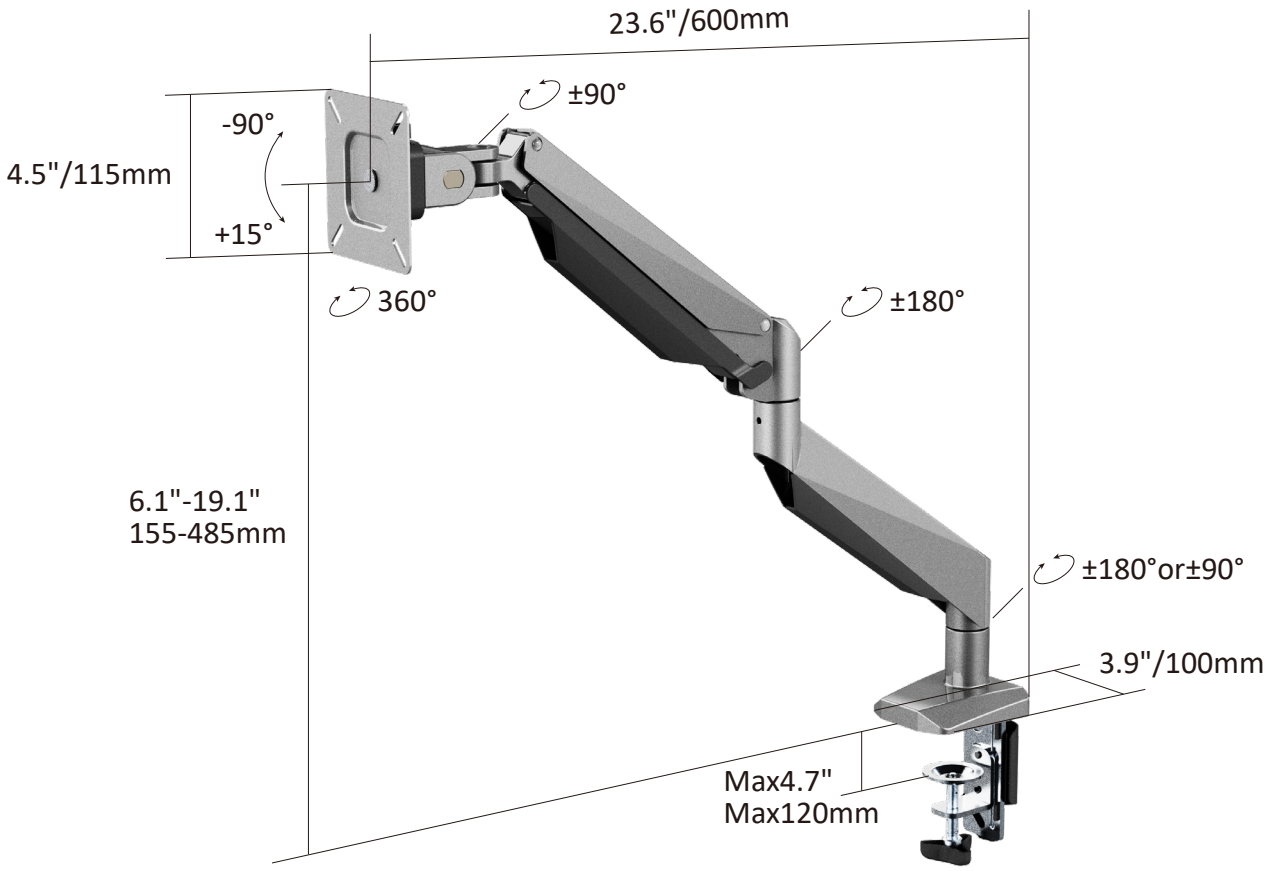

Tool-Free VESA Plate

Easy installation, no need to hold the screen.
Snap and lock – done by a single person.
