HAL

Jasper Morrison, 2010/2014

'Special is generally less useful than normal': this statement sums up Jasper Morrison's guiding principle for creating designs that are not extraordinary but rather 'super normal' and – just like HAL – that show deference to the dictates of daily life. With HAL, he has reinterpreted the multifunctional shell chair and created a versatile family of chairs with a clean contemporary look. The shape of the seat shell provides great freedom of movement in a variety of sitting positions – even sideways or astride the chair.

The 15 different chair bases can be combined with a seat shell in polypropylene (HAL), in plywood (HAL Ply) or with a lightly padded shell covered in leather (HAL Leather). In the versions with a polypropylene shell and powder-coated base, HAL is also suitable for use in outdoor settings. As additional options, a fabric seat cover in various colours is available for all versions of HAL, and models with a plastic seat shell can be outfitted with a fixed seat cushion.

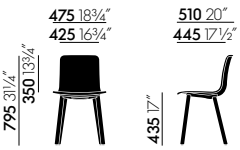

The related HAL Armchair rounds out the HAL family.

In the version with a four-legged base and a powder-coated finish in ivory or basic dark, HAL Tube is weatherproof and therefore also suitable for use on balconies or in gardens. Special additives retard the fading of the seat shell colours from the sun's rays.

HAL Wood

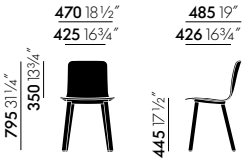

- Seat shell: dyed-through polypropylene, with optional seat cushion (screwed to the seat shell).
- Bas**e:** non-stackable wooden base in natural oak, dark oak or black-pigmented walnut. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey.

HAL Ply Wood

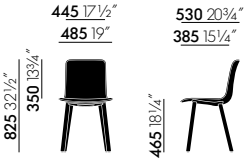

- Seat shell: plywood.
- Base: non-stackable wooden base in light oak, dark oak or black-pigmented walnut. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey.

HAL Leather Wood

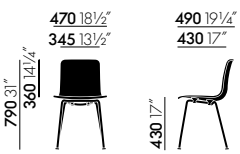

- Seat shell: polypropylene covered in split leather.
- Base: non-stackable wooden base in natural oak, dark oak or black-pigmented walnut. Seat shell and base connection in die-cast aluminium, powder-coated finish.

HAL Tube

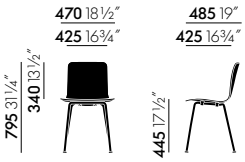

- Seat shell: dyed-through polypropylene, with optional seat cushion (screwed to the seat shell).
- Base: four-legged base in tubular steel, non-stackable, chrome-plated or powder-coated in ivory or basic dark. The powder-coated version is suitable for outdoor use.

HAL Ply Tube

- Seat shell: plywood.
- Base: four-legged base in tubular steel, non-stackable, chrome-plated or powder-coated in ivory or basic dark.

HAL Ply Tube Stackable

- Seat shell: plywood.
- Base: stackable four-legged tubular steel base, chrome-plated finish. Up to 6 chairs can be stacked on the floor, up to 15 chairs on a stacking trolley.

HAL Tube Stackable

- Seat shell: dyed-through polypropylene.
- Base: stacking four-legged base of chromed, tubular steel. Up to 6 chairs can be stacked on the floor, up to 10 chairs on the stacking trolley.

HAL Tube Armrest

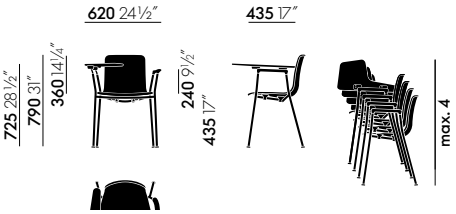

- Seat shell: dyed-through polypropylene.
- Base: four-legged base of chromed tubular steel. Up to 6 chairs can be stacked on the floor and on the stacking trolley. Colour of armrest always matches seat shell.

HAL Tube Writing Tablet

- Seat shell: dyed-through polypropylene.
- Base: four-legged base in tubular steel, with a foldable tablet desk in black, always mounted on the right (from a seated position). Up to 4 chairs can be stacked on the floor or on a stacking trolley.

HAL Sledge

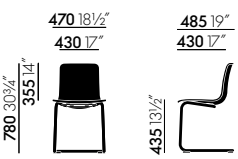

- Seat shell: dyed-through polypropylene.
- Base: sledge base in chrome-plated tubular steel. Up to 6 chairs can be stacked on the floor, up to 13 chairs on a stacking trolley. Also available with row connectors.

HAL Cantilever

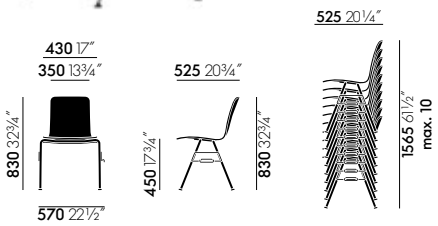

- Seat shell: dyed-through polypropylene, with optional seat cushion (screwed to the seat shell).
- Base: cantilever base in chrome-plated tubular steel, non-stackable.

HAL A-Stacker

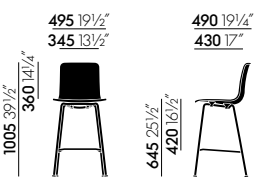

- Seat shell: black beech, with or without seat cushion (Twill fabric).
- Base: four-legged tubular steel base, chrome-plated, with row connectors. Up to 10 chairs can be stacked on the floor or on a stacking trolley.
- Glides: plastic or felt glides in basic dark.

HAL Stool Medium

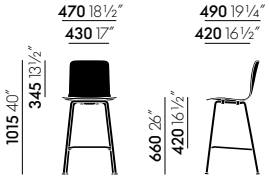

- Seat shell: dyed-through polypropylene, with optional seat cushion (screwed to the seat shell).
- Base: chrome-plated tubular steel, non-stacking.

HAL Ply Stool Medium

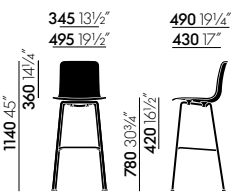

- Seat shell: plywood.
- Base: chrome-plated tubular steel, non-stackable.

HAL Stool High

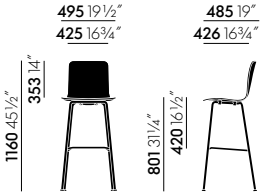

- Seat shell: dyed-through polypropylene, with optional seat cushion (screwed to the seat shell).
- Base: chrome-plated tubular steel with anti-skid footrest, non-stacking.

HAL Ply Stool High

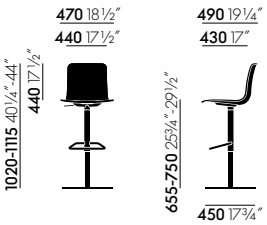

- Seat shell: plywood.
- Base: chrome-plated tubular steel with anti-skid footrest, non-stacking.

HAL Barstool

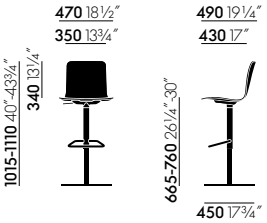

- Seat shell: dyed-through polypropylene, swivel mechanism, with optional seat cushion (screwed to the seat shell).
- Base: height-adjustable tubular steel pedestal, gas spring powder-coated in basic dark, column sleeve and footrest in chrome-plated tubular steel with anti-skid surface. Seat shell and base connection in die-cast aluminium, powder-coated in dim grey. Steel base plate with brushed stainless steel cover (matt); felt bottom.

HAL Ply Barstool

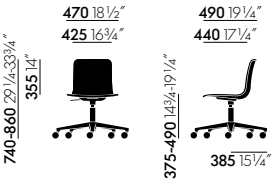

- Seat shell: plywood; swivel mount.
- Base: height-adjustable tubular steel pedestal, gas spring powder-coated in basic dark, column sleeve and footrest in chrome-plated tubular steel with anti-skid surface. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey. Steel base plate with brushed stainless steel cover (matt); felt bottom.

HAL Studio

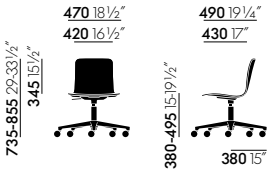

- Seat shell: dyed-through polypropylene.
- Base: five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

HAL Ply Studio

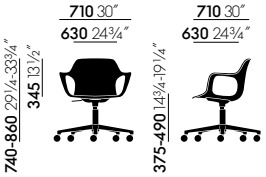

- Seat shell: plywood.
- Base: five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

HAL Armchair Studio

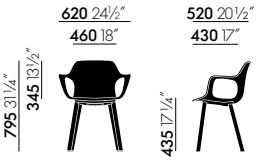

- Seat shell: dyed-through polypropylene, with optional seat cushion (screwed to the seat shell).
- Base: five-star base in die-cast aluminium powder-coated in basic dark. Swivel mechanism with shock-absorbing seat suspension, height-adjustable.

HAL Armchair Wood

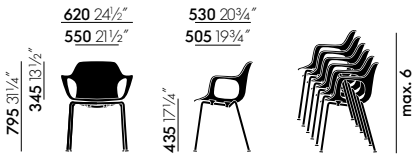

- Seat shell: dyed-through polypropylene, with optional seat cushion (screwed to the seat shell).
- Base: non-stackable wooden base in light oak, dark oak or black-pigmented walnut. Connecting element between shell and base in die-cast aluminium, powder-coated in dim grey.

HAL Armchair Tube Stackable

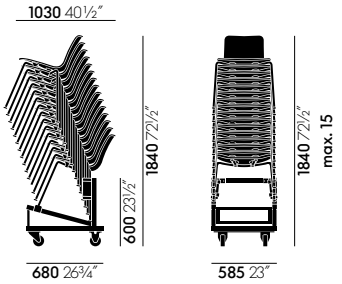

- Seat shell: dyed-through polypropylene.
- Base: stackable four-legged tubular steel base with chrome-plated finish. Chairs with seat cushions should not be stacked, since stacking could damage the upholstery.

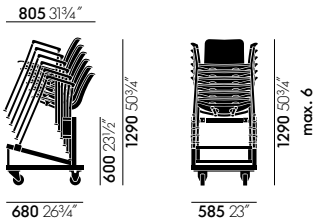

HAL additional elements

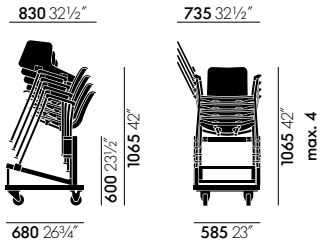

HAL Stacking dolly, Trolley suited for all stackable HAL chair models (except HAL A-Stacker)

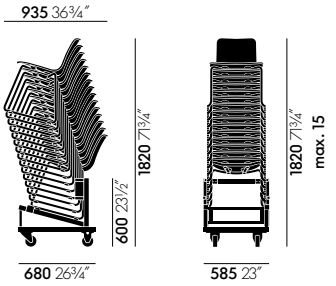

HAL Tube Stackable, four-legged tubular steel base, stacking

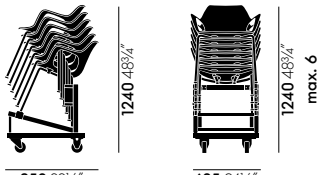

HAL Tube Armrest, four-legged tubular steel base, stacking

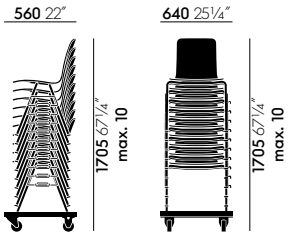

HAL Tube Writing Tablet, tubular steel base, stacking

HAL Sledge, sledge tubular steel base, stacking, with linking connectors

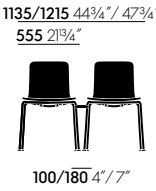

HAL Armchair Tube Stackable, four-legged tubular steel base, stacking

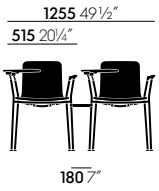

HAL A-Stacker stacking trolley, for 10 chairs

HAL Armchair with linking connectors

HAL Tube Stackable with linking connectors

HAL Tube Writing Tablet with linking connectors

The HAL row connector is a linking element in two sizes: 100 mm for a smaller and 180 mm for a larger distance between the chairs. The number clips of the linking elements for the .03 also match the new HAL linking element.

For the following HAL chairs, the linking elements can be used in both sizes:

- HAL Tube Stackable
- HAL Ply Tube Stackable
- HAL Tube Armrest

For the following HAL chairs, only the linking element of 180 mm can be used:

- HAL Armchair Tube Stackable
- HAL Tube Writing Tablet
