NEXUS

The Nexus table series is an integral part of a connection. A smooth link between the individual's and the group's space. Freestanding or together. Your desk. My personal space. Or our shared bench solution. Multi-functional. Created for today's creative working environments. And way of working. Collaborating. Side by side. Or opposite each other. Flexible. Communicative. And social. Ideal for dialogue. But also for focusing yourself. With the benefit of great aesthetics. All to function in the context of your working day.

THE MULTI-FUNCTIONAL TABLE

The Nexus table series can easily be customised to suit the user needs. It is a flexible range for different types of situations, ways of working and working environments, and with its unique characteristics is well suited to modern ways of working. The multifaceted thinking behind it means that it is easy to change Nexus from a solution for individual workplaces to an area for project or team meetings. Something which also makes the series suitable for activity-based environments where the same table is used by different people in different kinds of situations during a working day. The bench solution's unique Flexrail system makes it possible to add accessories without having to use any tools. The desks are linkable, which makes it easy to create more work surfaces beside and opposite one another. Nexus has a sophisticated design. With different tabletop designs in both attractive veneers and stylish laminate. You can have both a desk and a bench solution in the same finish – all with a uniform look. Nexus is manufactured in our own production facilities, which gives us control of the entire process. Our manufacturing process takes place in an energy-efficient and environmentally sustainable manner.

SMART SOLUTIONS FOR VARIATION

Today a great deal of work takes place in teams. We meet, discuss, decide, inspire and create value together. Nexus gives you a space-efficient and customised solution which offers many functional work surfaces. You now have the opportunity to create fixed and moveable workplaces at the same time – all to be able to create a working environment which promotes both dialogue and concentration. Where thoughts become ideas and shared goals are created. You get a creative environment suitable for the individual, the team and the group.

INDIVIDUALLY OR TOGETHER

SOPHISTICATED DESIGN

Nexus is designed using thought-out details which together form a functional whole. There are loads of choices. Different versions create an expression for our time. You can choose between elegant oak, beech or birch veneers and ten attractive laminates in combination with black, white or silver legs. The design focus is the balance between aesthetics and function. Resulting in the option to customise and the flexibility to create a modern impression.

"The Nexus series has a stylish design, where our focus has been to offer a functional workplace which is easy to customise to best suit the work tasks being carried out during the day. In other words, a complete activity-based solution."

Per Enskär, International Product Manager Desk and Meetings

Design: Kinnarps Studio

DESK – FUNCTIONALITY FOR YOU

The desks offer many smart benefits. The various tabletop and underframe options make them easy to position and simple to combine with other furnishings. The legs can be adjusted to achieve the correct height for sedentary work. There are lots of practical options, for example screens for creating your own personal space. A sliding top, cutouts for cables and cable trays hide cables and sockets to give an uncluttered impression. There is great flexibility, and you can choose between using Nexus freestanding or linked together in groups. Combine it with one of our ergonomic task chairs to create the best workplace just for you.

QUICK FACTS DESK

- Choose between two different leg models in white, black or silver:
  - rectangular with fixed height.
  - square with adjustable height
- The tops are available in some 30 different shapes.
  Read more on page 22.
- Three veneers and ten laminates.
- Sliding tabletop and easy cable management.
- Linkable for flexible work surfaces and placement.
- Cable tray (silver, black, white) is height adjustable and can easily be opened from both sides.
- Complement with screens. Available in fabric in ten different colours or frosted white acrylic.

With smart connecting leg frames you can link desks and tabletops together to create more space and new functionalities. You can create whatever set up suits the team and can also divide up the work surface with fabric or acrylic screens.

NEXT OFFICE™ – ACTIVITY BASED WORKING

Nowadays, with the help of technology, we can work whenever and wherever we like. The need for personal workplaces is on the decline and there is instead an increasing need for flexible, activity-based environments. Where you can find an optimal balance between private and social spheres, between meetings and individual work, and between concentration and dialogue. The multi-functional Nexus tables fit in well in different kinds of environments where the same table can easily be used by a number of different people during the same working day.

BENCH SOLUTIONS – MANY TABLES IN ONE

The Nexus bench solution gives you a customisable table. With its multifaceted mindset, it follows you and your team through the working day, and meets the varying needs of the individuals, the group and the project. The unique Flexirail system means that, without any tools, you can add and remove different accessories. For example, desktop screens, power sockets, dividers or monitor arms. Screens can create a personal space for work requiring concentration. Without screens you can create a bigger space for project meetings or teamwork. Practical extension tops create useful extra surfaces. It is all permeated by a functional way of thinking where different alternatives for cable management keep your surfaces uncluttered. It also provides many options of going online, suitable for today's mobile technology.

QUICK FACTS BENCH SOLUTION

- The Flexrail system means the bench solution can be changed according to work task.
- Rectangular legs with fixed height in white, black or silver.
- The tabletops are 700 mm or 800 mm deep. Read more on page 23.
- Three veneers and ten laminates.
- Sliding tabletop and easy cable management.
- Extension tops create extra space.
- Complement with screens. Available in fabric in ten different colours or frosted white acrylic.

By adding an extension top you easily supplement the bench solution with extra space, which can be used for extra meeting space, an essential work space, or an additional workplace.

EASY TO CUSTOMISE

Nexus gives you a flexible and space-efficient solution. Something which suits today's working environments where the number of workplaces needed often shifts from week to week or from day to day. Therefore the tables are easy to customise to more or fewer employees. The Flexrail system means you can fit the bench solutions with the accessories which you need to create complete workstations. They are easily removed later to create more space. You can also move screens, dividers and monitor arms sideways with Flexrail to create more work surface.

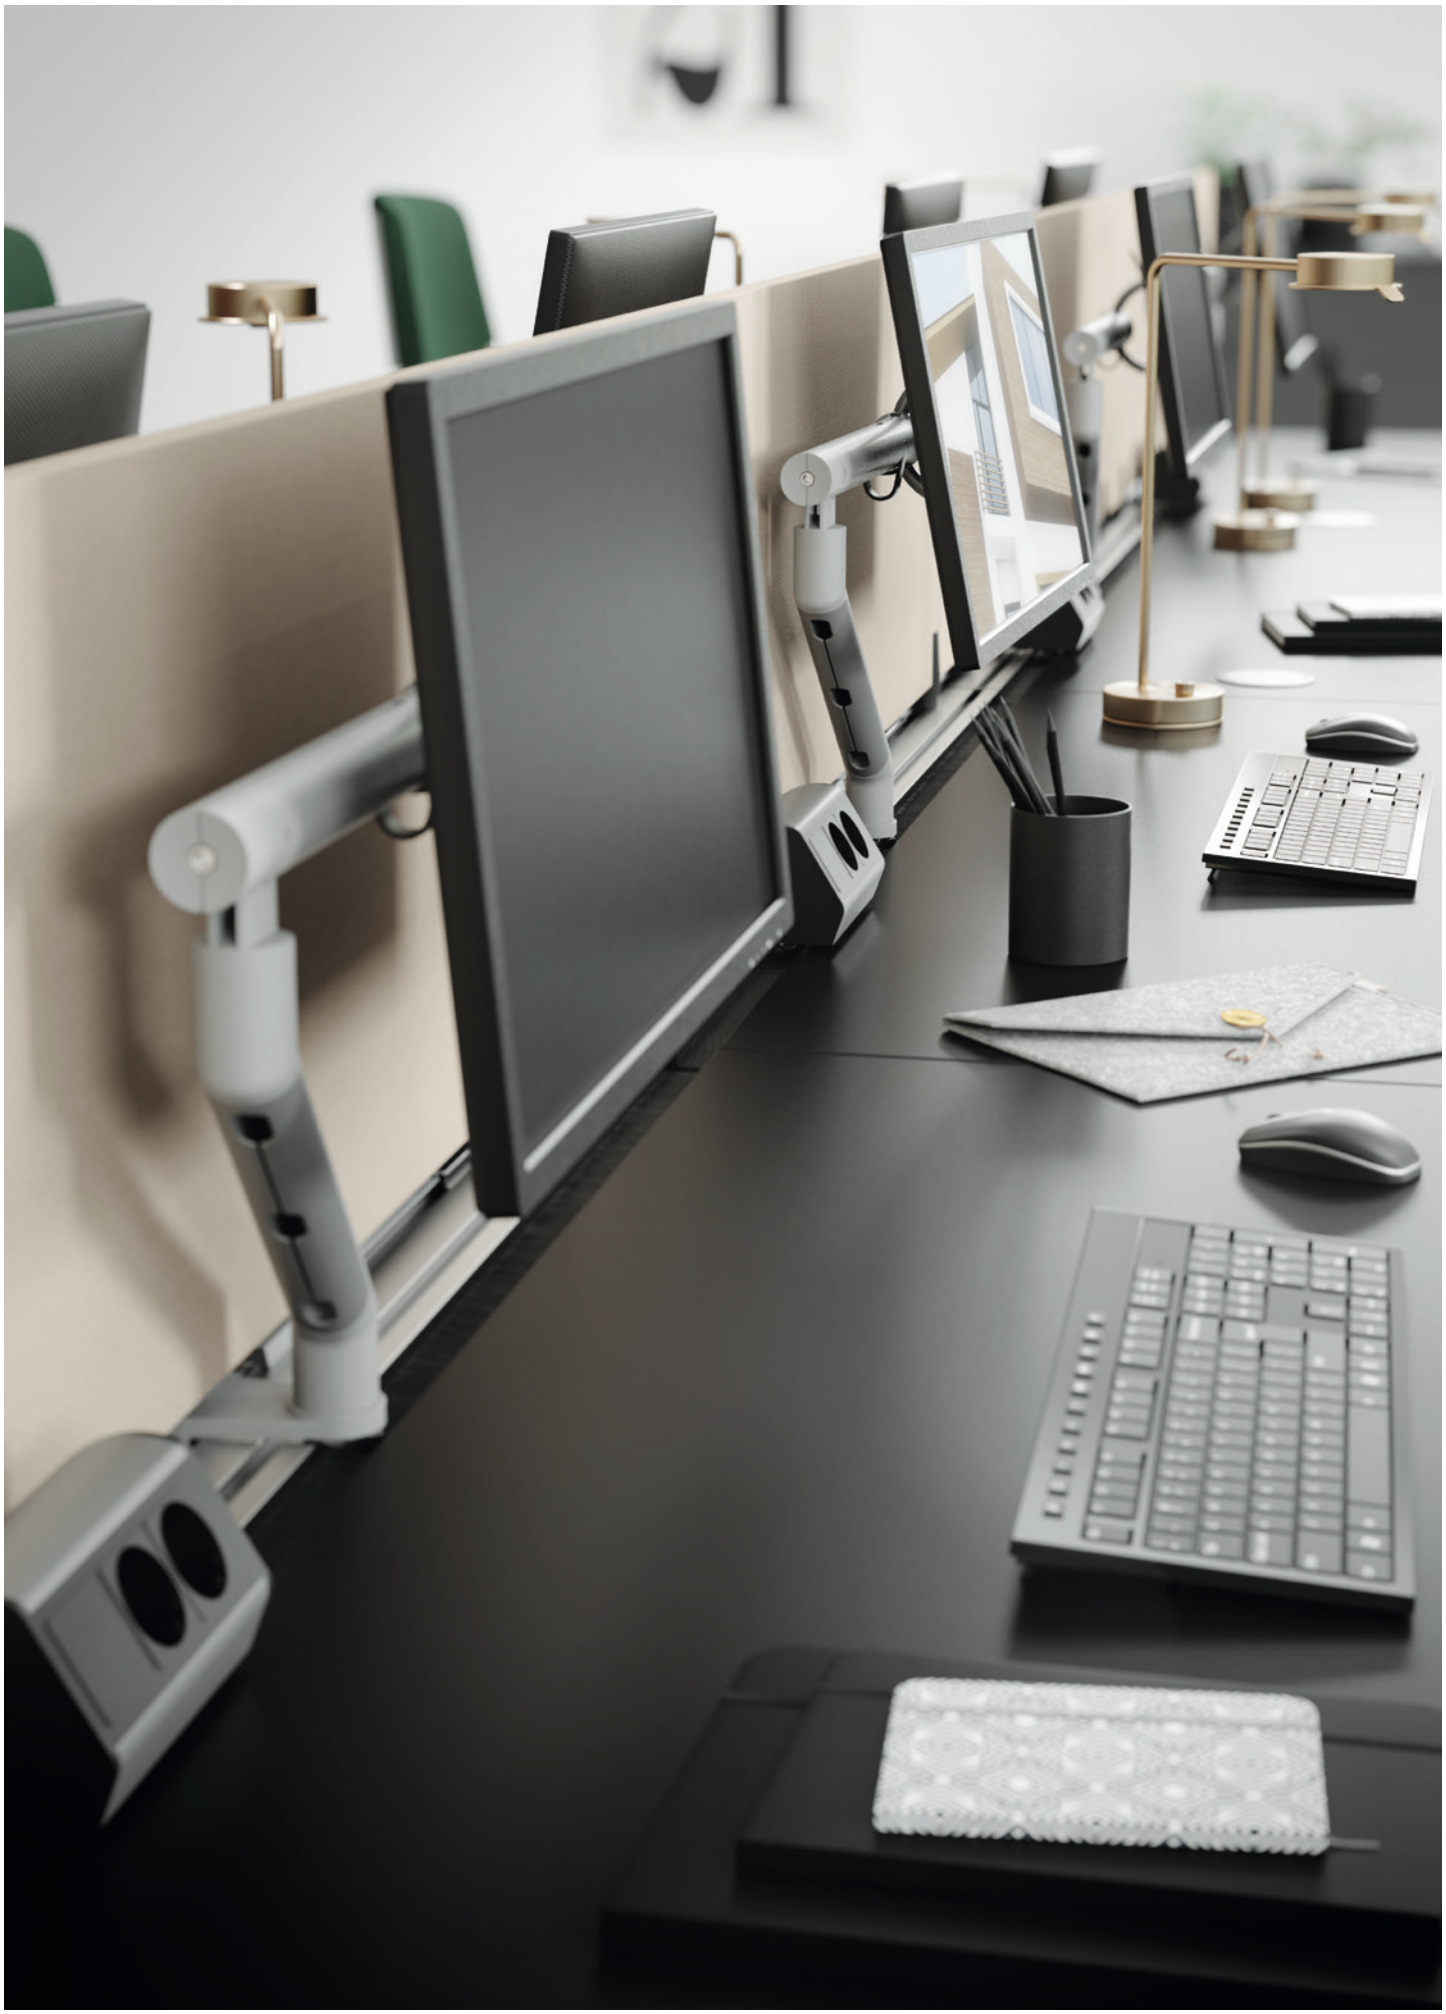

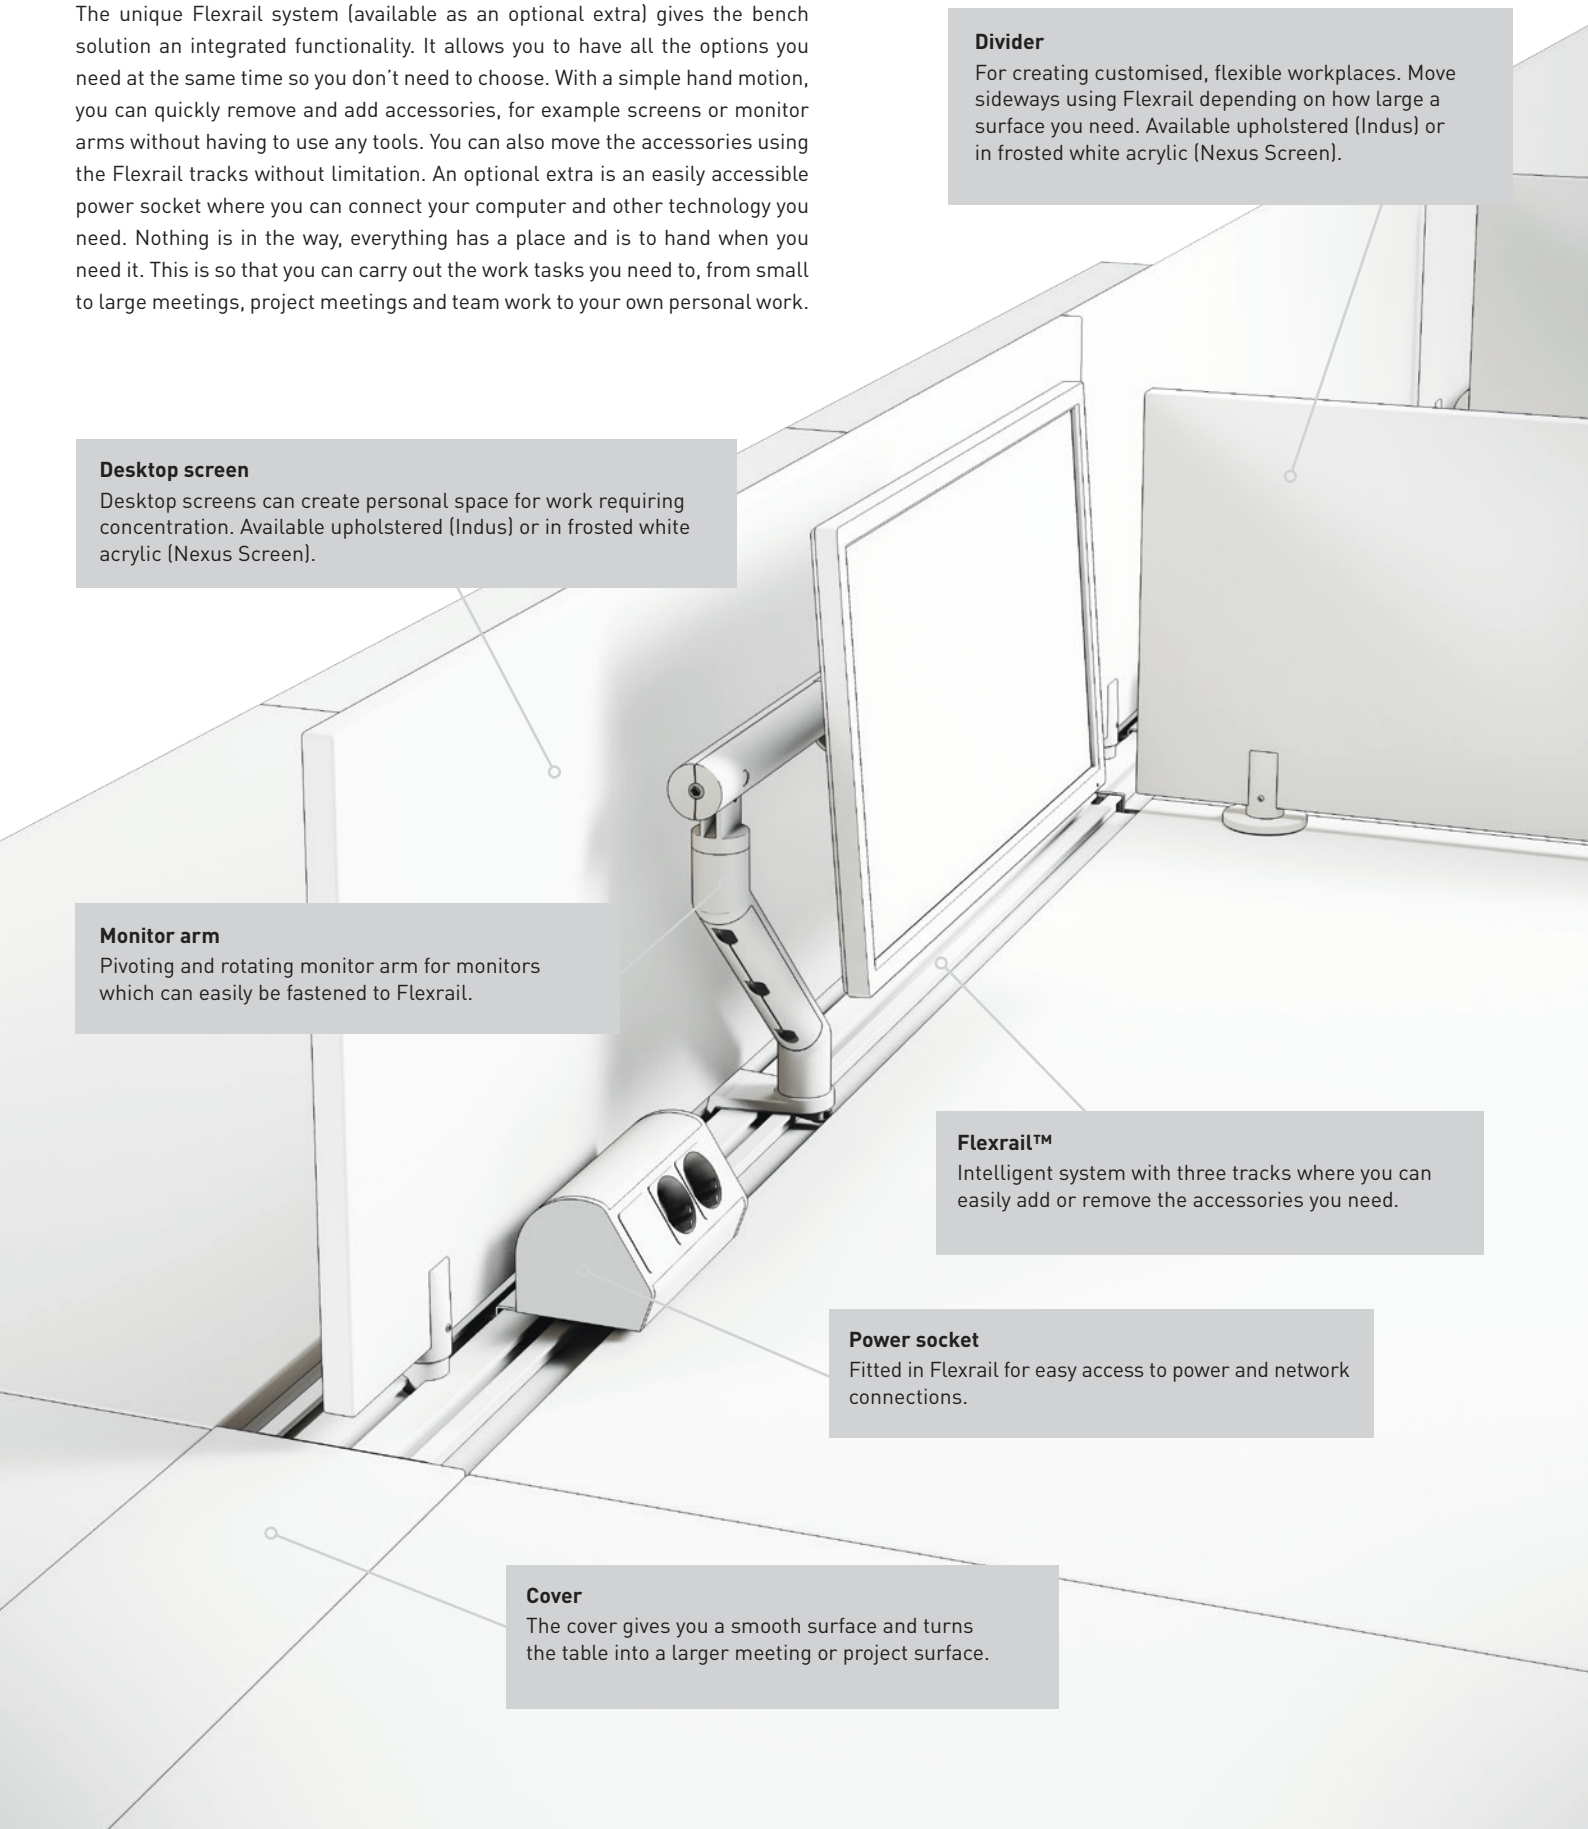

FUNCTIONS & OPTIONS

FLEXRAIL™

The unique Flexrail system (available as an optional extra) gives the bench solution an integrated functionality. It allows you to have all the options you need at the same time so you don't need to choose. With a simple hand motion, you can quickly remove and add accessories, for example screens or monitor arms without having to use any tools. You can also move the accessories using the Flexrail tracks without limitation. An optional extra is an easily accessible power socket where you can connect your computer and other technology you need. Nothing is in the way, everything has a place and is to hand when you need it. This is so that you can carry out the work tasks you need to, from small to large meetings, project meetings and team work to your own personal work.

Divider
For creating customised, flexible workplaces. Move sideways using Flexrail depending on how large a surface you need. Available upholstered (Indus) or in frosted white acrylic (Nexus Screen).

Desktop screen
Desktop screens can create personal space for work requiring concentration. Available upholstered (Indus) or in frosted white acrylic (Nexus Screen).

Monitor arm
Pivoting and rotating monitor arm for monitors which can easily be fastened to Flexrail.

Flexrail™
Intelligent system with three tracks where you can easily add or remove the accessories you need.

Power socket
Fitted in Flexrail for easy access to power and network connections.

Cover
The cover gives you a smooth surface and turns the table into a larger meeting or project surface.

FUNCTIONS & OPTIONS

SLIDING TOP
A sliding tabletop (adjustable 130 mm depth) gives a clean finish as cables and sockets can be easily hidden. Choose ball-bearing slides for more control and quick lock for easy use.

CABLE TRAY DESK
The cable tray means you can store all cables and power sockets. Matches the colour of the legs (silver, black, white). Can be adjusted to two height settings. Can also be opened from two sides for easy access to cables. High edges hold the cables in place when opening.

CABLE TRAY BENCH SOLUTION
Spacious, adjustable cable tray (in silver) where you can store all cables and power sockets. Can be hooked off on one or both sides for easy access.

EXTENSION TOP
The bench solution has a practical extension top. It creates extra space, an essential work surface or a temporary workplace. Fitted to the outer leg assembly. Can also be fitted at a later stage.

LEGS - ADJUSTABLE HEIGHT
Square shaped legs (50x50 mm in silver, black, white) with adjustable height (650-850 mm). Only fits desks.

LEGS - FIXED HEIGHT
Rectangular shaped legs (30x50 mm in silver, black, white) with fixed height (740 mm). Suitable for desks and bench solutions.

PANELS
Well-designed panels in veneer, laminate or metal which match the finish of the legs and tabletop. Fitted under the tabletop.

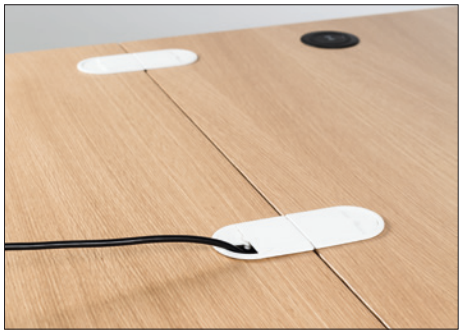

CONNECTING LEG FRAME BENCH SOLUTION
Connecting leg frame for bench solution (standard when four or more tables are linked). For easy cable management a spacious vertical cable tidy is included and is height adjustable. Matches the colour of the legs (silver, black, white).

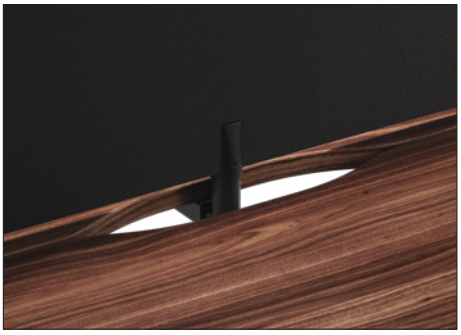

CONNECTING LEG FRAME DESK
Connecting leg frame for desks which is used to link together 800 mm deep tables lengthwise. Available in silver, black, white.

CABLE TIDY
Practical cable tidy made of steel which you can fasten with a magnet on any of the table legs. Matches the colour of the legs (silver, black, white). Can also be fitted at a later stage.

OVAL TABLETOP CUTOUT
Using the tabletop cutout you can fit the table with accessories such as screens, monitor arms and can deal with cables practically. You can have up to three oval tabletop cutouts per tabletop with edge cutouts and a swivelling plastic cover.

SCALLOP CUTOUT WITH LIPPING
Tabletop cutout (only for bench solution) is placed in the centre of the tabletop. Used for accessories and managing cables. Has a lipping which matches the colour of the tabletop for a uniform look.

FABRIC SCREEN INDUS
Indus comes as a divider and a desktop screen and can be used both on the desk and the bench solution. Available in ten colours in Delta fabric. You choose the fastener depending on where and how you would like to place the screen.

NEXUS ACRYLIC SCREEN
Desktop screen or divider in frosted white acrylic. Can be used on desk or bench solution. You choose the fastener depending on where and how you would like to place the screen.

MONITOR ARM
Flexible and adjustable arm (silver, white) for flat computer monitors. It can be twisted and rotated for the best possible functionality. An iPad holder can also be added to the arm.

TABLETOP CUTOUT WITH POWER SOCKET
Round tabletop cutout with square silver frame and black power socket. Has four holes for cable ports.

POWER SOCKETS AND CONNECTIONS
This powerbox has a socket for power, a network connection and a USB port close to hand. It also has a practical cable trap.

HOLDER/CHARGER MOBILE TELEPHONE
This practical wireless charging unit (placed in a round tabletop cutout) means you can charge your mobile phone by placing it on the unit.
