

Extra wide chair with armrests

JACKIE 1132 XL

DESIGN: PETER ANDERSSON

IN THE ASSORTMENT SINCE 2015

Jackie extra wide chair with armrests is a stackable chair that you also can hang up on the table. In addition it has several optional extras. Jackie has been a success story. Most likely due to the combination between several clever functions and its nice design with leather details that enhances its looks.

Jackie is available in several different versions: Wooden seat or upholstered seat. Wooden back or an upholstered back that is attached with nice leather details. Jackie chair is produced in birch FSC Mix and the chair meets the Möbelfakta requirements. A very sustainable choice. You can choose fabric from all fabric manufacturers and if you would like some tips, please check out our fabric guide.

Rubber weave on the seat as protection is available as optional extra. Other optional extras include connectors, sound absorbers and wheels on the front legs.

Jackie is a complete family of seating furniture including also functional easy chairs, sofas and armchairs. When comparing the Jackie series with other similar products available one thing in particular stands out – the high level of design. The next generation of caring design solutions is already here!
