Eames Elephant

Charles & Ray Eames, 1945

Eames Elephant

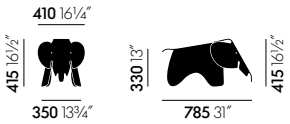

Charles and Ray Eames developed a toy elephant made of plywood in 1945; however, this piece never went into production. Now manufactured in plastic, the Eames Elephant is available to the target group for which it was originally intended: children.

Whether as an indoor-outdoor toy or simply as an attractive object in a child's room, this friendly looking animal with prominent, oversized ears will bring delight to children and parents alike.

Materials

- **Material:** dyed-through polypropylene, matte finish.
