

Metal - Group: M1.

Metal parts. Steel and aluminium are mainly used in the manufacture of chairs and tables but also for racks. At VS, tubes as well as metal sheets for fronts are generally epoxy-resin powder-coated. In addition to various **metal colours**, selected products can also be chrome-plated.

M030 terra grey, M032 light blue, M033 light green, M041 turquoise, M045 broom yellow, M059 arctic, M063 anthracite, M065 black, M071 sapphire blue, M084 oxblood, M091 white
